within their business from a global point of view across all worldwide regions.

TBC
HP

12:00 SAP User Group Conference Update
The latest programme information and details on the SAP
User Group Conference in November.

Craig Dale
SAP User Group

12:15 Lunch & Networking

13:15 Getting the Right Training, for the Right Staff at the Right Time
When SAP user training is neglected, all kinds of problems arise
that can undermine business efficiencies and affect business
performance. This presentation examines how user training can
be effectively planned, designed and employed in an organisation
to ensure SAP customers realise the full potential business value
of their SAP solution.

Don Valentine
Absoft

14:00 Ensuring Training is Integrated into the SAP Upgrade Programme
An outline of how training is a critical component of an SAP upgrade
programme. Introducing a best practice approach to ensure end user
training is planned, prepared and integrated into SAP upgrade
implementation plans. The presentation will look at key touch points that
will enable the end user training requirements to be accurately identified
and successfully executed, thus supporting the overall objectives of the
upgrade. This will be outlined in the context of SAP Education's
'Eight Steps to Success' end user training methodology, along with real-life
customer experiences.

Meeting to be held on 10th June 2008

At Hewlett Packard, Bishopton, Renfrewshire

AGENDA

14:45 SAP Enterprise Learning and SAP Productivity Pak

Chris Mclellan
SAP

SAP Enterprise Learning

SAP Enterprise Learning is the latest version of SAP's Learning Management System. As an integral part of SAP's Talent Management Suite (which sits within the ERP Human Capital Management Solution) Enterprise Learning enables customers to quickly and easily close skills gaps within their organisation and align learning with business objectives. This session will provide an overview of Enterprise Learning and explain how the solution can help deliver the right training to the right people in your organisation.

SAP Productivity Pak

Creating e-Learning content and supporting users through an SAP implementation can be a complex and time consuming task. SAP Productivity Pak enables the creation of project based documentation and online help to be significantly streamlined. As part of this session on Enterprise Learning, we will also briefly discuss Productivity Pak and what benefits it has for SAP customers over other simulation and training tools."
