At **Roke Manor Research, Romsey, Hampshire**

AGENDA

09:30	Registration & Coffee	All
10:00	Introduction and Welcome	Rachel Morris SIG Chair
10:05	Round the Room Introductions	All
10:15	<p>The value of upgrading to ERP 6.0 for Project Systems With ERP 6.0 (previously known as ECC6) a wealth of new functionality is available for Project Systems users. This functionality has been furthered with “Enhancement Pack 3” now on general release and the forthcoming “Enhancement Pack 4” will even add more functionality – much of this coming directly from the requirements of existing Project Systems users. The session will focus on what is now available and the roadmap for future ERP 6.0 enhancement packs. New functionality includes:</p> <ul style="list-style-type: none">• Progress Analysis Workbench for Earned Value• Forecast Workbench• Intermediate saving of projects• New options for handling project materials• Service Enablement (SOA) of Project Systems <p>Planned functionality includes the handling of very large Projects. Find out how upgrading will put you on the future roadmap for Project Systems</p>	Dave Green SAP
