

Glynn Lowth

BASF IT Services;
Vice Chairman and Director of the SAP UK & Ireland User Group

Glynn is Enterprise Applications & Business Solutions Manager at BASF IT Services Ltd, the in-house IT company of BASF, the worlds largest chemical company. He is responsible for providing SAP support and development services to BASF and third-party customers through teams of staff based in the UK and Scandinavia, covering a wide range of SAP applications in diverse industries.

Glynn's previous roles have included implementing wall-to-wall applications to FDA standards at Knoll Pharmaceuticals, and a wide range of commercial, financial, and IT positions in various divisions at The Boots Group. Glynn is a Chartered Management Accountant and President of CIMA - The Chartered Institute of Management Accountants.

As Chairman of the UK & Ireland User Group until 2007, he initiated the significant changes made to the organisation including the move to full independence from SAP, setting up of a comprehensive administrative infrastructure, and the employment of operations staff. He also chaired the first and highly successful conference as an independent body in 2006.
