

Philip Adams

Business Applications Manager, Mercury Engineering
SIG Chair – Ireland

Having joined Mercury Engineering after a consulting career with Accenture, Philip was responsible for corporate wide business process analysis and re-engineering. This led to Philip managing an ERP product evaluation and subsequent implementation of SAP within Mercury Ireland, comprising FICO, MM, SD, PM, PS, HR & Payroll and additional bespoke modules.

As Business Applications Manager, Philip is responsible for support of SAP within Mercury Engineering, ensuring that all business requirements are met and that value and benefit is achieved from Mercury's investment in SAP. Key ongoing / future projects include an upgrade to ERP6, configuration of ETM and roll-out of SAP to Mercury's international operations.
