

## **SAP UK & Ireland User Group Ireland Group Launch**

The SAP UK & Ireland User Group is launching its Ireland Group on 1<sup>st</sup> February 2006 at SAP Ireland, Dublin.

We believe that this is a very exciting time in the SAP marketplace and have created this group to provide a positive, open, and collaborative forum for the discussion and exchange of ideas. You will have the opportunity to network with other customers and various members of the SAP UK & Ireland team, improving your knowledge and understanding of SAP by learning from the experiences of others.

We believe you will find this to be a valuable event for the exchange of ideas and we are greatly looking forward to developing this special interest group to meet the further requirements of our members based in Ireland.

There are many advantages of being involved in the SAP UK & Ireland User Group, which include knowledge sharing, networking opportunities, access to the members' only section of the website ([www.sapusers.org](http://www.sapusers.org)) and the ability to attend over 30 User Group meetings per year and you may have already experienced some of these benefits.
