

Darrol Radley

Business Systems Manager, Homebase
SIG Chair – Retail

Having been in store management, buying, merchandising, and space management throughout his career, working for companies such as Woolworth, Asda and Texas Homecare, Darrol became involved with SAP during the blueprint phase of the SAP implementation at Homebase.

Initially involved in process design for the Trading and Supply Chain areas he ended up taking over the management of the project team six weeks before go live and led the team through roll out and stabilisation.

He is now Business Systems Manager for both Supply Chain and Trading teams looking for ways to enhance the business benefit to be gained from SAP.
