

Elaine Pritchett

Director of the SAP UK & Ireland User Group.

Elaine became chairman of the SAP UK and Ireland Payroll Special Interest group in 1998. She saw its expansion from a “round the table” session of between 15 and 20 attendees growing into a meeting of over 70 people requiring an auditorium by 2003. Whilst she no longer chairs the payroll SIG, Elaine continues to be an active member of the User Group Executive.

Formerly Group Payroll Services Manager for Centrica (British Gas), Elaine was integral to the implementation of the first major SAP UK payroll solution for British Gas Services in 1995, going on to manage various stages of Centrica’s Payroll development, including several upgrades and reimplementation in 2005.
