

Paul Cooper

IS Business Systems Support Director – Northern Foods
SIG Chair – Implementation and Support SIG

Earlier this year Paul took over as Chair of the Implementation and Support SIG, and we held our first meeting for a couple of years earlier this summer. Paul has worked for Northern Foods for 15 years the early part of his career with them was spent in manufacturing management and operations support, including being part of a team that commissioned a new factory. In 1998 Paul was seconded to work on the SAP implementation for Northern Foods, initially involved with the design, configuration and implementation of the PP module before moving into a support role. Paul has day to day responsibility for the Northern Foods SAP systems which are used by 5000 users across over 40 sites (including a number of sites and users that were de-merged from Northern earlier this year).
