

SAP UK & Ireland User Group Embraces Partner Community

The SAP UK & Ireland User Group has created an affiliate membership for potential partners to embrace the wider SAP community and to increase the knowledgebase for its members, thus affording partners more exposure to the UK & Ireland SAP user base.

The SAP UK & Ireland User Group's membership is open to licensed users of SAP in the UK and Ireland. Membership consists of organisations of various sizes and includes some of the largest private companies and significant Public Sector organisations in the UK and Ireland.

We want to develop partnerships with vendors of SAP related products and services who can add value for our members, whilst creating opportunities for our Partner to create added value for their own organisation.

We are looking to offer a number of opportunities to our partners, including exhibiting at our events, advertising opportunities on our website, sponsorship of communication materials and Special Interest Group meetings.

If you are interested in becoming a Partner of the SAP UK & Ireland User Group, please email your details to support@sapusers.org and we will send further information regarding our Partnership proposal to you.
