Reports

Ask Queries

Unproductive calls for status updates

Errors in translation

- Portal built on opensource technologies
- Covers end to end process of engaging with supply chain partners such as suppliers, logistics and service providers
- Advanced functionality such as vendor onboarding, reverse auction
- Integrates with SAP S/4HANA

2. Channel Engagement – iCust

Customer Portal Solution

Open source

Target

Any company with a channel-based distribution model

Benefits

- Customer self service
- Better customer engagement
- More time for productive work for sales teams

The image displays two screenshots of the iCust Customer Portal app. The left screenshot shows the 'Take Order' screen with a sidebar menu containing options like Home, User Profile, Sales Order, Approve Orders, Order Status, Delivery Confirmation, Delete Record, Collections, and Announcements. The main form includes dropdowns for 'Select Ship To Party' and 'Select Bill To Party' (both set to 'SRI RAGHAVENDRA TRADERS-DARSI'), a 'Select Shipping Point' dropdown (set to 'Guntur'), 'PO No.' (56223559), 'PO Date' (03-12-2019), and 'Select Order Type' (Credit). A green 'NEXT' button is at the bottom. The right screenshot shows the 'Order Summary' screen with fields for 'Bill To Party', 'Shipping Point', 'PO No.', 'PO Date', and 'Order Type'. It features a 'Material Details' section with two items: 'LACER 100 ML' (Qty 23, Price 128.80, Discount 10.00, Amt. 2952.30) and 'LACER 500 ML' (Qty 12, Price 257.59, Discount 10.00, Amt. 3081.10). A table on the right shows GST and Total amounts. The total amount is 6033.40. A green 'SUBMIT' button and red 'Reject' and green 'Approve' buttons are at the bottom.
