

Are You Making The Most Out Of Your SAP SuccessFactors Investment?

If you’re reading this, chances are you have invested heavily into SAP SuccessFactors and considering a roadmap – to optimally align and leverage the solution for better ROI.

We help you embark on this journey with a holistic view of your SAP SuccessFactors implementation, HR systems, processes, and business goals.

Are you leveraging Best Practices to Optimise Your SAP SuccessFactors Solution Investment?

Gavdi Group helps organisations get more value from their SuccessFactors investment with an independent and comprehensive review of your existing platform, including the strengths, weaknesses, and opportunities to improve. We’ll discuss your system’s processes and configuration compared to your business priorities and objectives.

From there, we’ll show you how to alleviate your pain points by implementing recommended processes and existing functionality. Finally, we will provide you with a detailed report on suggested enhancements along with best practice guidelines.

STAGES

1 Needs Analysis

2 System Review

3 Recommend and Report

Configuration Review

The configuration review is a comprehensive assessment process aimed at evaluating and optimizing the existing setup of your SAP SuccessFactors Human Capital system. The goal of the review is to ensure your system aligns with business requirements, operates efficiently, and utilizes best practices.

Workshop

The workshop is focused on enhancing the system’s efficiency and alignment with business processes to collaboratively review current configurations and identify areas for improvement. Participants discuss best practices, explore new features, product releases, functionalities, and prioritize actionable changes. The outcome is a comprehensive action plan based on Gavdi Group best practices.

Insights and Reporting

Our comprehensive report provides users with an overview of the current system state, highlighting identified inefficiencies, misalignments, and performance bottlenecks. The report includes specific recommendations for configuration improvements, suggested enhancements along with best practice guidelines.

Resolution Planning

For any changes you agree to implement, we provide a resolution plan, ensuring you have a clear path forward to optimize and enhance your SAP SuccessFactors solution best on industry best practices.

About Gavdi Group

The Gavdi Group is an employee-owned company with a proud heritage and an outstanding reputation for delivering award-winning SAP workforce management solutions built around human experience management – HXM.

Since we opened our first office in Copenhagen in 1999, our ever-evolving history is one of continuous innovation and expert delivery in the area of SAP human experience management solutions. We have used our success to expand our areas of operation to 11 countries in the EMEA region, much of which was driven by customer demand.
