Prolifics®
Vision to Value. Faster.

TRANSFORM, RISE & GROW WITH SAP

We run your SAP, while you run your Business.

ABOUT **PROLIFICS**

Prolifics is a global digital transformation leader, empowering enterprises to reimagine their business models through intelligent, cloud-enabled SAP solutions. With over **300 SAP professionals, 150+ clients across 12 industries, and 75+ end-to-end implementations,** we deliver measurable business outcomes powered by innovation, automation, and agility.

We combine **deep industry expertise** with **cutting-edge technology,** backed by strategic partnerships with **SAP, Microsoft, IBM, and Salesforce,** to deliver comprehensive, outcome-focused SAP transformations.

OUR **SAP COMPETENCIES**

SAP S/4HANA Cloud – Public & Private Editions	SAP Business Technology Platform (BTP)	SAP ECC and S/4HANA On-Premise Implementations	SAP Testing and Automation	Intelligent Process Automation with AI & Analytics

OUR **CORE STRENGTHS**

Expertise Area	Prolifics Advantage
Implementation	Greenfield, Brownfield, and Bluefield S/4HANA projects with SAP Activate methodology
Integration	Seamless connectivity across SAP and non-SAP systems using SAP Integration Suite, API Management, and BTP
Extension	Clean-core extensibility via SAP BTP, RAP, Fiori Elements, Node.js, and ABAP
Analytics	Real-time insights using SAP Analytics Cloud and Embedded Analytics
Governance & Security	Role-based access control, SoD checks, and compliance with SAP GRC
Managed Services	Continuous improvement and optimization certified by SAP Germany for S/4HANA Solution Operations

OUR **SAP OFFERINGS**

Prolifics
Vision to Value. Faster.

## 1. RISE with SAP S/4HANA Cloud – Private Edition

A comprehensive transformation-as-a-service offering that accelerates digital adoption through a single, unified contract and subscription model. **Key Highlights:**

- ☑ Cloud-first ERP with built-in best practices and analytics
- ☑ Clean-core extensibility using SAP BTP
- ☑ Hyper-scaler flexibility (AWS, Azure, GCP, CtrlS)
- ☑ Embedded AI, process intelligence, and workflow automation

Our Approach

End-to-end delivery using SAP Activate across

| Discover | Prepare | Explore | Realize | Deploy | Run phases |

2. GROW with SAP S/4HANA Cloud – Public Edition

Designed for **mid-sized and fast-growing enterprises,** enabling quick time-to-value with preconfigured best practices and SaaS scalability.

- ☑ Multi-tenant, ready-to-run ERP
- ☑ Quarterly innovation cycles managed by SAP
- ☑ Central Business Configuration (CBC) for lifecycle management
- ☑ Real-time analytics and KPI dashboards via SAP Analytics Cloud
- ☑ Predictable, subscription-based pricing

Value-Added Services:

Fit-to-Standard implementation, integration, extensions, analytics, training, and managed support.

3. SAP Business Technology Platform (BTP)

A unified platform for integration, extensibility, analytics, and automation—supporting clean-core transformations and real-time innovation.

- ☑ SAP Integration Suite for seamless connectivity
- ☑ SAP Extension Suite for rapid app development
- ☑ Workflow automation, event-driven architecture, and low-code innovation
- ☑ Identity management and security provisioning

OUR **SAP OFFERINGS**

1. SAP S/4HANA (On-prem / Hosted)

Full-scale ERP with **complete control** over architecture and customization.
Capabilities:

- ☑ ECC to S/4HANA conversions and upgrades
- ☑ Custom code remediation and functional delta mapping
- ☑ Advanced module activations (EWM, TM, PS, AATP)
- ☑ Multi-country rollouts and version upgrades
- ☑ Fiori app enablement and UX transformation

5. SAP ECC (On-prem / Hosted)

Mature and proven ERP backbone supporting mission-critical business processes.
Services Include:

- ☑ Greenfield implementations,
- ☑ DB/OS migrations, version upgrades
- ☑ Shared service enablement (Finance, Procurement, Payroll)
- ☑ Integration with non-SAP applications (HRMS, CRM, MES)
- ☑ Transition planning to S/4HANA
