

Finance Special Interest Group

Meeting to be held on Thursday 12th March 2009

At SAP UK Ltd, Clockhouse Place, nr Heathrow

AGENDA

09:30	Registration & Coffee	All
10:00	Introduction & Welcome	George Mansfield Chair
10:10	Round the Room Introductions	All
10:20	Secure and Effective Data Extraction from the SAP ERP System The ability to easily and securely extract data in real-time from your transactional SAP system is critical for many business applications – one-time use data extracts, operational business intelligence reports, prototyping a steady-state BI report, etc. This presentation will give a description of the variety of tools (SAP-provided and third-party tools) available for such ad-hoc reporting applications and compare and contrast these tools in terms of their ease-of-use, security, and performance.	Mark Hallam Winshuttle
	Key Learning Points:	
	1. What are the applications of real-time data extraction from transactional system?	
	2. How do some of these SAP-provided and third-party tools for data extraction work?	
	3. How do the different data extraction tools compare to each other?	
11:20	Coffee & Networking	
11:50	8 Steps to Enhancing the Finance SIG	George Mansfield Chair
12:05	Winshuttle in Use	Ideas from Users
12:20	2008 Conference Review	Craig Dale SAP User Group
12:30	The User Group Forum. Helping each other	All
12:45	Lunch & Networking	All
13:45	Reporting Tools, Tips and Techniques. A self help session looking primarily at COPA, Profit Centre Reporting (Report Writer) and Information Systems.	All
14:30	ERP Financials Update A look at some of the new functionality available in EhP 4 and examples of how SAP financials could comply with IFRS.	James Willis SAP
15:15	Coffee and Tea	All
