

Testing Special Interest Group

Meeting to be held on Wednesday 18th March 2009

At SAP UK Ltd, Clockhouse Place, nr Heathrow

AGENDA

- 09:30 Registration & Coffee All
- 10:00 Introduction & Welcome Craig Dale
User Group
- 10:10 Round the Room Introductions All
- 10:20 Customer Session on Performance Testing Mark Tristram
Centrica Corporate
- Find out how performance testing is applied and how it fits into the project lifecycle with this in-depth look at an example from one of the UK's most complex businesses. Attendees will hear firsthand about the pain points the company was experiencing and how they improved areas such as:
- Mitigate the risks involved in introducing new functionality and its potential impact on the existing production environment
 - Accelerated application delivery
 - Increased business agility
 - Reduced support costs
 - Quicker identification, isolation & resolution of bottlenecks
 - Development of overall process for future test effort
- 11:05 Coffee & Networking
- 11:35 SAP Test Data Migration server (TDMS) Kevin Richardson
- Learn how SAP's Test Data Migration Server is helping customers create quality development, QA, and test systems quickly and cost effectively using up to date productive data replicated and scrambled from the production systems. The systems uses a combination of master data and reduced transaction data as to your requirements, reducing your time to create, improving quality and reducing costs. SAP
- 12:20 2008 Conference Review Craig Dale
- 12:30 Learning Session on Testing Scripts Simon Evans
Experior
- Learn more about general test script writing including:
- The generic structure of testing
 - What to look out for
 - What to test and what not to test
 - Which tools are used for which testing methods
 - Benefits your company could achieve by using a more efficient testing methodology
- This session will include practical advice.
- 13:00 Any Other Business All
- 13:15 Lunch
- 14:15 Coffee, Networking & Close
