Paul Aitkenhead
Co Chair |
| 10:10 | Round the Room Introductions | All |
| 10:20 | Performance Optimisation from SAP
This session will provide insight into how they meet an organisation's requirements for unified information and collaborative decision making and enable the alignment of strategy and financial plans, better management of risk and assured operational compliance. | James Hogan
SAP |
| 10:30 | SAP Business Objects: Converging for the Business User
We are seeing the need to converge what have in the past been disparate disciplines into a single integrated system that addresses users demands for Unified Information, Collaborative decisions, and Business network optimization. For customers, this new found ability to optimize business performance will result in broader insight, aligned strategy and financial plans, better management of risk and assured operational compliance. Find out about the new Enterprise Performance Management (EPM) suite from SAP, Closing the gap between strategy and execution, How EPM integrates with your existing SAP landscape, Netweaver BW and Business Objects BI, The touch points between EPM, risk and compliance controls, How to build on your existing investments. | Jim Robinson
SAP |
| 11:15 | SAP Business Objects: Performance Optimisation Product Demonstration | Jim Robinson
SAP |
| 11:45 | Coffee & Networking | |
| 12:15 | 2009 Conference Update | Craig Dale
SAP User Group |
| 12:30 | Delivering a Management Information Platform for UK Department for Transport (DfT)
This session will present an insight into the drivers for change at DfT focusing on the need for a coherent approach to consolidate business-critical management information previously held in a number of separate legacy systems. Following the success of the SAP Business Objects Planning and Consolidation rollout at National Networks Group Chris has led the adoption of the solution across the whole of the UK Department for Transport now supporting a wide variety of management and operational reporting processes with a single unified platform. | Chris Hall
Ex DfT |
