10:15  The Rough Guide to SCM                                            Ian Scott
Supply Chain Management has parts which extend the capability                SAP
of ERP, it has parts which are new value adding functionality, bits
which can stand-alone and bits which integrate with ERP and other
parts of the SAP suite of products. We will explore the dark arts of
SCM processes, how it fits together and the type of situations
where it increases the value generation capability of an organisation.
And all without the use of "leverage" or "value proposition"

11.15  Coffee & Networking                                                   All
