

The background of the top half of the page is a photograph of a large audience of people seated in a conference hall, clapping. The image is overlaid with a dark blue semi-transparent filter. On the right side, there are large, overlapping circular shapes in yellow and orange, partially overlapping the audience image.

Introducing the UK & Ireland SAP User Group

Here at the User group we have over **4500 members** registered with 500 companies across the UK and Ireland. We hold over **100 Events** in all SAP related areas each year including one day Symposiums, Special Interest Group meetings (SIGs), a range of Webinars and not forgetting our showcase Annual Conference.

"I have been a customer of SAP and member of UKISUG for over 10 years. The User Group provides an unmatched platform to gain valuable insight, helping me define strategy and execute projects big & small, which ultimately benefits my organisation's use of SAP. My passion for the core values of UKISUG led me to become more involved by taking on voluntary roles, in which I hope add to the success of the services the User Group delivers to its members, allowing those members to realise the power of UKISUG in maximising their value from SAP."

Philip Adams, Head of Group IT, Mercury Engineering

Our aims are to facilitate **networking**, knowledge exchange and **best practice** amongst members.

We also provide an independent voice for SAP users in the UK and Ireland whilst supplying a channel for SAP to communicate to customers.

Learn

Your User Group journey generally starts with learning, with over 4500 of your peers and hundreds of experts from both SAP and our partner community, allowing you to expand your knowledge and value from your investment in SAP.

- 50 face to face events each year
- Latest roadmaps from SAP
- Experts sharing their knowledge
- Members sharing their experiences
- Over 100 online events
- Wherever you are and on whatever device

"A great event encouraging knowledge sharing and lessons learned, with a look to the future and a nod to the past. Good for those that like to network in a comfortable relaxed environment. A must for those beginning their SAP journey or looking for new direction."

Network

UKISUG connects the whole SAP community, allowing you to network face to face and online with:

- Over 4500 other customers
- Industry experts
- Experts from SAP
- Our extensive Partner community

"I'm proud of being SAP UG member and it really helps me to establish links, focus on SAP Roadmap and learn from others' experience."

Influence

Being part of UKISUG allows you to add your voice to that of our other members and impact every stage of SAP's development cycle.

- Founder member of SUGEN (SAP User Group Executive Network)
- Work directly with SAP and SUGEN
- Influence SAP development
- Influence future solution development
- Ensure customer focus

"For any organisation wanting to influence product development and maximise their SAP investment, I would certainly recommend becoming a member of the SAP User Group and getting involved with the Customer Connection Program. It is the most direct way to make improvements to SAP and if your request is accepted you can quickly realise the benefits. With SAP's product portfolio constantly evolving, it is important that users continue to have a say to ensure their business requirements are being met."

Collaborate

As you build your network, your User Group provides the platform for you to start working together with other members and SAP experts alike, driving success from your use of SAP.

- UKISUG Jam connecting our member community online
- Year round engagement

"Our experience shows that by collaborating with other companies and learning from each other's experiences you can develop solutions to real business problems without having to break the bank. Membership of the user group has been invaluable."

4500
Individual Members

Get involved...
