WPB is the latest offering from SAP Education following the recent acquisition of datango. With WPB Training teams and professionals can rapidly create a host of materials to support the education and enablement process. This includes documentation, PowerPoint slides, high quality Software Simulations, Quizzes, bespoke e-Learning courses for any subject matter and context sensitive help. Content can be easily maintained following a change including translation into 38 languages. Featuring two authoring components and a Learning Content Management system for content delivery and tracking, WPB offers a complete solution for project teams. With HPQC integration WPB can connect your training and testing teams. The Navigator delivers real time help in the live system, reducing user error and support costs, or likewise can also be used to communicate change 'just in time'. The Manager LCMS component reduces the administration overheads associated with planning and task management whilst providing light LMS functionality to measure competence prior to go live. | Andy Taylor &
Adrian Moslehi
