Sir Matt Busby Way, Old Trafford, Manchester, M16 0RA

09:00	Registration & Coffee	All
10:00	Introduction & Welcome and User Group Update	Paul Cooper Vice Chairman UKI SUG
10:15	SAP Cloud - Built for Business In this session Nick Macilvaine, Vice President, Employee Central Sales & Strategy – Europe & EMEA for SuccessFactors, an SAP Company, will discuss the strategy for SAP and the Cloud, explain the technology now available, share key experiences, and showcase why, with more than 30 million cloud users, SAP has a lot of collective experience from SAP to share.	Nick Macilvaine SAP
11:00	SAP Managed Migration to the Cloud SAP has introduced a program which offers existing customers on releases in Customer Specific Maintenance a risk-free migration to the latest technologies in the SAP HANA Enterprise Cloud.	Shahzeeb Ahktar & Chris Osborne SAP
11:45	Lunch & Networking	All
13:00	The Future of SAP HR – Employee Central in the Cloud Overview presentation of Employee Central, SAP’s cloud HR solution. There will be a particular focus on global capabilities, roadmap and how SAP HCM on premise customers can migrate to the cloud.	Nicholas Macilvaine SAP Success Factors
13:30	SAP on the AWS Cloud The business value of running SAP on the AWS Cloud. How customers are currently using it and some lessons learned.	Eamonn O’Neill Lemongrass Consulting
14:00	SAP – Cloud Built for Customer Engagement– How SAP can help you engage with your customers using the next generation of CRM. Customers are changing, evolving and disrupting the norm. See how SAP can help your organisation focus on the new normal in sales, marketing, and service delivered in the cloud	Marcel Lindsay SAP
14:30	Coffee & Networking	All
15:00	What is HEC? <ol style="list-style-type: none"> 1. It is a managed private cloud infrastructure providing a managed service to deploy HANA-centred systems and other SAP databases faster and with less risk than a traditional on-premise deployment. 2. Provides the path to Cloud Adaption and is the bridge to the enterprise cloud for our customers. 3. Value in providing infrastructure and services that reduce complexity and TCO. 	Paul Moakes SAP
15:30	Demystifying SAP Source to Pay; on-premise, on-demand and on-hybrid This session will provide a “drains up” comparison of the options available to SAP customers when considering deployment of an end-to-end Procure to Pay solution with SAP. A number of areas will be covered, highlighting and comparing the solutions available through SAP ERP / SRM and Ariba.	Tim Marshall Excelerated Sourcing
16:00	What Makes a true SAP Production Enterprise Cloud Cloud Computing is fundamentally changing IT, making it more dynamic, on demand and more efficient. In this session Luiz Vianna, Managing Director of Virtustream will discuss how Enterprises are now able to move all of their complex mission critical IT environments to the Cloud and use hybrid cloud solutions that combine onsite private clouds with offsite public/virtual private clouds to take advantage of the flexibility, scalability and cost benefits of cloud computing.	Luiz Vianna Virtustream
16:30	Close	All
16:40	Stadium Tour	All
