09:35	How To Make The Most Of Your Conference	Craig Dale CEO, UKISUG Auditorium
09:55	Achieving Success in a Digital World After a year in role, Cormac Watters, Managing Director, SAP UK & Ireland will present on how SAP has evolved over this time to better support its customers in today's digital economy. The pace of change that we are experiencing today, and the resulting disruption, is greater than ever before; disruption that is transforming the way that we all do business. Cormac will outline how SAP UKI is working with its customers to bring the greatest value through technology, helping its customers to adapt to this change and improving the internal infrastructure at SAP to provide the support needed to do so successfully.	Cormac Watters Managing Director SAP UK & Ireland Auditorium
10:10	Transforming Your Business Aspirations into Real Value Get exclusive insight into the Business Suite strategy of SAP from Sven Denecken, Global Vice President for SAP S/4HANA. Discover how digital transformation will happen and how SAP can help you, based on co-innovation examples Sven will share how customers transform their business aspirations into real value.	Sven Denecken SAP Global Vice President, Co-Innovation and Strategy SAP S/4HANA Auditorium
10:55	Coffee & Networking	Exhibition Hall
11:35	Disrupting Digital Business: The Post Sales, On Demand, Attention Economy Is Here Digital business disruption is no longer an option—it's a necessity. Social, organizational, and technology shifts require a new way of thinking about business, one that leverages a digital DNA to deliver experiences and outcomes, and to transition from selling products to keeping brand promises. Learn how digital transformation allows you to use digital to disrupt instead of become one of the disrupted.	Ray Wang Principal Analyst & Founder Constellation Research, Inc Auditorium
