

Supply Chain Management

Special Interest Group

Meeting to be held on Wednesday 15th March 2017

At SAP Clockhouse Place

AGENDA

09:30	Registration & Coffee	All
10:00	Introduction & Welcome	Richard Symes & Martin Crangle Co-chairs
10:05	Round the Room Introductions	All
10:20	Managing Supply Chain Risk is no easy task in the current environment Surrounded by Political uncertainty, an unstable economic landscape, environmental challenges coupled with the standard supply chain issues we live day in day out. How are leading organisations managing this risk? How are they using Technology to address these challenges? We will take a look at what good looks like and what the characteristics are of these Supply Chain Organisations? The objective is to share a high level methodology to help understand where you are and discuss three recent case studies that can help shape thinking about where you should be heading: <ul style="list-style-type: none">• Using Advanced Analytics in a deeply complex Manufacturing environment• Using Technology as an enabler to drive a change in Company Culture• Procurement's role in a modern S&OP environment	Manuel Palanca ExceleratedS2P
