Supply Chain Management SIG

Meeting to be held on Wednesday 25th September 2019

At SAP Clockhouse Place, Bedfont Road, Feltham, Middlesex, TW14 8HD

AGENDA

09:30	**Registration & Coffee**	All
10:00	**Introduction & Welcome** *Everyone present to briefly introduce themselves, share their reason for attending and their expectations for the day*	Martin Crangle SIG Co-Chair
10:20	**Collective lessons learnt and key customer success factors from over a decade of digital supply chain. With Q&A** *Drawing on real customer projects across SAP TM, EWM, WM and IBP over the past 10 years across the consumer products, manufacturing and logistics service providers sectors, we are looking forward to sharing customer success stories, overall project aims and outcomes and what individual customers did to achieve their desired outcomes. The topic of conversation will be highly relevant to any other customers looking to pursue future or planned digital supply chain projects or bring more value to existing projects.*	Lewis Marston Rocket
11:20	**Coffee & Networking**	All
11:40	**The New SAP Model Company – Accelerator to the Intelligent Enterprise** *In this session SAP will present one of the most important accelerators in an S/4HANA engagement, the SAP Model Company. The presenter will outline the concept, describe the strategy behind the offerings and go into the details of the portfolio. Finally, collaboration with partners will be discussed.*	Michael Schmidt SAP
12:40	**Meet the Developers Update** *Key Takeaways from a trip to Walldorf to meet with the SAP Developers*	Richard Symes SIG Co-Chair
13:15	**Lunch & Networking**	All
14:15	**UKISUG Update**	Craig Dale UKISUG
14:35	**Mobilising SAP Mobile & Operational Workforces, "A productive workforce is able to act instantly"** *In this session we will help you to:* *Categorise your mobile and operational use cases into 5 commonly occurring scenarios.* *Make you aware of key SAP mobile and web technologies.* *Provide recommendations and best practices for each use case / scenario.* *Help you make an informed start to your SAP UI (mobile and web) strategy.* *Avoid the pitfalls and unnecessary costs of mobile application platforms by demonstrating where they are not required and where they can add value.*	Lewis Marston Rocket
15:45	**Close**	All
