UKISUG

Please describe your volunteer role with the User Group or your experience of the UKISUG

I have not held a volunteer role in UKISUG, however since taking my current role at Venator I have supported the UKISUG in a number of ways:

- Discussions with on membership options and options to consider bundling membership with other items such as Learning hub and conference tickets
- Working with Beth Fountain on feedback from Connect 2018 with the production of “Your Delegate Journey” leading up to Connect 2019
- Involvement in creation and development of the UKISUG North East Roundtable meetings, including the preparation of special SIG regarding recruitment challenges in the North East

Why do you want to serve as a Director of UKISUG?

I would like to support the work that the UKISUG does to bring together SAP users as I feel that the community of knowledge and experience is extremely valuable to us all when correctly utilised. The UKISUG is an effective vehicle to achieve this.

I have enjoyed the involvement that I have had so far and want to leverage this further to benefit UKISUG and its members. I'm passionate about the fact user organisations sharing information and experiences can add value to everyone involved.

While familiar with the board governance processes within my own organisation I would like to gain further experience from this opportunity to develop myself in areas I may not be currently involved in, to the benefit of both organisations.

**What appropriate experience can you bring to UKISUG and its Board of Directors?
(E.g. governance, professional capabilities, financial control, membership organisations, etc.)**

I bring 20 years of SAP experience from a number of perspectives from end user, consultancy and independent contractor in roles from application consultant to consulting manager as well as Operational management. As well as across several industry sectors such as Engineering & Construction, Automotive, Food, public sector, retail, pharmaceutical and Chemicals.

This helps me to understand the challenges that implementing and operating an SAP environment can bring and would aid in conversations with other user organisations and SAP in an objective way. As a Director within my current organisation I have the experience to deal with these scenarios.

Having worked in a number of senior roles I can hopefully add value to the strategic planning and review processes that a board member requires with maintaining an objective view based on my SAP experiences.

Please return the completed form to elections@sapusers.org
