UKISUG

Please describe your volunteer role with the User Group or your experience of the UKISUG

Currently I am a member of UKISUG and have attended 2 of the UKISUG conferences. The latest conference I spoke about Burberry's conversion from ECC to S/4.

Why do you want to serve as a Director of UKISUG?

I am interested in serving to gain better understanding of customer's SAP Journey's and challenges. I would like to opportunity to help influence SAP's roadmap and help customers be more successful with SAPs products to drive business value.

**What appropriate experience can you bring to UKISUG and its Board of Directors?
(E.g. governance, professional capabilities, financial control, membership organisations, etc.)**

I have a strong track record of delivery within the SAP space. I can also bring good knowledge about SAP strategy and how to deliver business outcomes. I have experience working within complex system integrator environments as well as SAP contract management. I have a good insight into the SAP Councils and how to use these to influence the SAP product roadmap within a LOB.
