Career and Experience

Current role and responsibilities
Finance Systems Manager responsible for SAP ByDesign and BPC systems. <ul style="list-style-type: none">• Lead Team of Systems Analysts to manage data governance and system enhancements, providing reliable and consistent delivery to the business• Develop and deliver system roadmaps for long term strategy for Data Governance, Warehousing and Systems Support• Project management lead for SAP components of wider business initiatives• Ongoing process and compliance government improvements• Manage 3rd Party Supplier relationships
Previous relevant roles
<ul style="list-style-type: none">• Business Process Capability Lead – BP Castrol• Business and Transformation Program Manager - Hewlett Packard• SAP Implementation Manager - EDS
Experience of working with the SAP portfolio of products and services
I have worked on global SAP ECC implementations, upgrade and enhance projects from 1998 to 2019, with EDS, HP and BP. I also worked on a BPC upgrade project at BP. At De La Rue we have SAP ByDesign and BPC and I have been working with these products since June 2019.
Other relevant professional experience
In senior management roles I have regularly engaged with C level stakeholders, providing strategic level information to help them make key decisions in relation to project scope, budget and timeline demands.
Education and Professional Qualifications
<ul style="list-style-type: none">• Certified Project Manager Professional since 2004• LCCI English for Business Level 3 – Distinction 1997

UKISUG

Please describe your volunteer role with the User Group or your experience of the UKISUG

I joined the User Group in June 2019 and have used the online forum on occasions but hope to access this community more now I have settled into my new role. I also recently attended a User Group and SAP workshop on Trust, which I found extremely valuable and a very good initiative. It has also helped me to better understand the role of the User Group.

Why do you want to serve as a Director of UKISUG?

I believe this is a position where I can add value using my background of working with SAP products for over twenty years as this provides me many insights and experiences to draw upon. Also, working in one of the worlds largest IT contractors for much of that time gives me a depth of experience within the industry, which I can contrast to my more recent moves to manufacturing employers. (BP Castrol and De La Rue).

I also believe that I will learn much from serving as a UKISUG director and this will help me develop further in my career too.

What appropriate experience can you bring to UKISUG and its Board of Directors?
(E.g. governance, professional capabilities, financial control, membership organisations, etc.)

My experience areas that I believe would be of most use in this environment are:

- Governance processes
- Project management planning skills
- Using Agile techniques to achieve outcomes faster
- Stakeholder engagement
- Strategic thinking

I also believe that my delivery focused, “can do” attitude will bring energy to discussions.
