

Analytics Symposium

Stream 3 Information

Time	Session	Company & Speaker
09:50	<p>Howdens SAP Analytics program</p> <p>Hear about the start of the Howdens SAP Analytics Cloud journey; the challenges and successes of their SAC deployment; how the SAP Enterprise Support Advisory Council (ESAC) pilot services were used to support the Howdens program, and lessons learned.</p>	<p>Trevor Cowan, Rob Smith & Nick Cooper</p> <p>Howdens & SAP</p>
10:50	<p>Modern BI approach for a BW/4HANA and S/4HANA global implementation</p> <p>There are a wide range of BI options available to deliver actionable business insight; however, Birchman's experience is that companies are not always aware of the options and when, why and how best to leverage them.</p> <p>During this session Birchman will provide the latest approach whilst showcasing examples from a global complex BW/4HANA and S/4HANA implementation.</p>	<p>Richard Taylor & Prabhat Verma</p> <p>The Birchman Group</p>
11:25	<p>SAP Analytics Cloud Roadmap & Recent Innovations</p> <p>In this session Orla will go through some of the latest innovations delivered with SAP Analytics Cloud from Smart features to mobile to user experience. She will also take a glimpse in to what else you can expect in SAP Analytics Cloud in 2021.</p>	<p>Orla Cullen</p> <p>SAP</p>
12:45	<p>Transitioning your analytics and BI to the cloud with SAP</p> <p>Many SAP Business Objects (BO) customers are grappling with a desire to move to cloud and/or modernise with SAC. This session will introduce the new BO Private Cloud Edition (PCE) 2021 offering from SAP, and how you can quickly and easily move your BO to the cloud (ie: Azure, AWS, Google), and then perform a phased transition to SAC over time.</p>	<p>Jonathan Freeland</p> <p>SAP</p>
