Scotland Special Interest Group

Meeting to be held on 10th June 2008

At Hewlett Packard, Bishopton, Renfrewshire

AGENDA

09:30 Coffee & Registration

10:00 Introduction and Welcome — Murray Elliot, Chair

10:05 Why HP for SAP - Why HP Integrity for SAP — Jason Briggs, HP
Overveiw of HP's Hardware with relevance to SAP

10:50 Coffee & Networking — All

11:10 SAP Supply Chain Management — Ian Brock, HP
HP to present on SAP Supply Chain Management and how that works
within their business from a global point of view across all worldwide regions.

11:40 How to protect supply chain business processes — Simon Collinson, HP
The session will discuss the continued importance of physical documents
with the supply chain. How can the basic SAP printing capability be
enhanced to establish a more robust and cost effective document delivery
environment. I will discuss a few examples where specific supply chain
processes have been enhance through automation.

12:20 SAP User Group Conference Update — Craig Dale, SAP User Group
The latest programme information and details on the SAP
User Group Conference in November.

12:30 Lunch & Networking

13:30 Getting the Right Training, for the Right Staff at the Right Time — Don Valentine, Absoft
When SAP user training is neglected, all kinds of problems arise
that can undermine business efficiencies and affect business
performance. This presentation examines how user training can
be effectively planned, designed and employed in an organisation
to ensure SAP customers realise the full potential business value
of their SAP solution.

14:15 Ensuring Training is Integrated into the SAP Upgrade Programme — Doug McPhail, SAP
An outline of how training is a critical component of an SAP upgrade
programme.Introducing a best practice approach to ensure end user
training is planned,prepared and integrated into SAP upgrade
implementation plans. The presentation will look at key touch points that
will enable the end user training requirements to be accurately identified
and successfully executed, thus supporting the overall objectives of the
upgrade. This will be outlined in the context of SAP Education's
'Eight Steps to Success' end user training methodology, along with real-life
customer experiences.

Scotland Special Interest Group

Meeting to be held on 10th June 2008

At Hewlett Packard, Bishopton, Renfrewshire

AGENDA

14:45 Coffee & Networking

15:00 SAP Enterprise Learning and SAP Productivity Pak   Chris Mclellan
                                                               SAP

SAP Enterprise Learning
SAP Enterprise Learning is the latest version of SAP's Learning
Management System. As an integral part of SAP's Talent Management
Suite (which sits within the ERP Human Capital Management Solution)
Enterprise Learning enables customers to quickly and easily close skills
gaps within their organisation and align learning with business objectives.
This session will provide an overview of Enterprise Learning and explain
how the solution can help deliver the right training to the right people in
your organisation.

SAP Productivity Pak
Creating e-Learning content and supporting users through an SAP
implementation can be a complex and time consuming task. SAP
Productivity Pak enables the creation of project based documentation
and online help to be significantly streamlined. As part of this session
on Enterprise Learning, we will also briefly discuss Productivity Pak and
what benefits it has for SAP customers over other simulation and training tools.

16:00 AOB & Close
