Online SIG Meeting
Wednesday 15th Sept 2021

AGENDA

09:00	Introduction & Welcome	Claire Hounsham SIG Chair
09:05	UKISUG Update	Kirsten Boucher UKISUG
09:10	SAP ReFX at Associated British Ports Associated British Ports business transformation migrated the company from five regionally varied TRAMPS databases, estate terriers managed in CAD and local document filing systems to a centrally managed SAP ReFX database (as well as Accounts Receivable, Billing and Revenue Management) integrated with a GIS Data Viewer & OpenText document management system. In order for this to be successful it required a huge amount of time being spent on getting the data right and engaging the team with new technology to make their jobs easier. The business has benefited immensely from this transformational change and is now looking at the next areas for improvement. Nadine will talk you through their journey, answering your questions and sharing their pain points and success.	Nadine Warken Associated British Ports
