| 10:30 | The Case for PP/DS
Customers using or considering APO are often unclear on the use of APO PP/DS functionality vs. ECC (R/3) PP functionality. This presentation will compare the functionality of APO PP/DS and ECC (R/3) PP, discuss the differences and point out the key drivers that lead to the use of PP/DS over ECC PP. | John Stevens

| 11:45 | MK Electric Goes Electronic
ED&S, a division of Honeywell Control Systems wanted to improve their order entry process from a manual process to an electronic process without impacting their customers. Also they wanted to improve the cycle times of order entry and the retrieval of purchase orders. With an automated document process solution from Esker, ED&S was able to remove 98% of their manual paper based order entry processes and reduce the order entry time down from 2 hours 30 minutes to an average of 38 minutes from receipt of the document. | Jason Howell
