Paul Viney
IQ Link
at Princes Ltd
This presentation will give an overview on how Princes have rolled out
RF bar-coded solutions across 9 production and distribution warehouses
over the last two years, using a common mobile integration platform from
Sky Technologies. Showing lessons learnt and how Princes have been
able to simplify and automate several SAP processes to significantly
streamline the business operation, including production receipt into stores
and streamlining the stock transport order process. More recently Princes
have used the same platform to deliver a mobile plant maintenance solution
and a web based PO approval solution within the business. IQ Link will give
some other examples of customers deploying the same mobile integration
platform to deliver mobile PO approval from BlackBerry, mobile shopping cart
approval (SRM) and an engineering stores bin-managed IM solution. There
will also be time for a brief demonstration and Q&A session.
